ABOUT US

Agam Training Resources is an open sesame for organisations who desire to gain necessary business process capabilities to grow and compete with world-class standards. We are entrusted by business society in the region for being a highly creative, socially responsible and ethical, leading training and management system solution provider. We cater the need for a variety of customers in the areas of manufacturing, service, education, and entertainment by high-value knowledge transfer, streamlining the business process and equipping the team through customized training modules. Our training modules are significantly unique, creative and highly penetrative, which improves the effectiveness of resources and enhances their voluntary willingness to adopt to any new lean manufacturing system which ultimately stretches any organization's outreach in the global market.

AGAM - TEAM HEAD

G. Vijay Babu has served in many companies in a wide range of roles. To name a few, he had served the roles of Asst. Manager in Pony (Needle Industries-Ooty), Head Designer at RKR Exports (Cbe), and Team Lead in ASEC India. He was a Trainer at QI group of companies.

Vijay Babu has been trained by the International V Team of Malaysia. He has successfully completed more than 1500 training sessions in many corporates all over Tamil Nadu. He is also a sought-after consultant for lean manufacturing techniques including 5S, Kaizen, TPM, TQM, 7 QC Tools and many more. He has efficiently implemented 5S in more than 20 companies. Also as a six sigma data analyst he has optimized operations of various industries through measurable 5S. As an eminent consultant for 5S/Quality circle implementation, he has provided training for both Technical and Behavioral subjects. Also, he has guest lectured in many conventions across educational institutions and public forums. He possesses almost a decade of extensive exposure and experience in corporate and life skills training.

G. VIJAYBABU

TEAM AGAM

YATHEESH P

Business Consultant and HRD Trainer, who has conducted more than 300 training sessions across various industries. Also, experienced in training and implementing 5S system across a wide spectrum of industries. Consulted industries operating in diverse verticals including engineering, automobile, garments, poultry, agriculture, food processing, etc.,.

Executed process capability analysis and viability studies. Performed statistical analysis of errors and designed error free systems to drive companies towards Lean Manufacturing. As a strong six-sigma data analyst, has been contributory in building data-driven teams within organizations for a self sustained growth.

Trained and empowered teams across an assortment of soft skill and custom designed spiritual modules to achieve behavioral changes among team members and to accomplish an internal transformation. Successfully established teams with continuous improvement through statistical inference.

TEAM AGAM

BOOPATHY S

Business Consultant with extensive administrative experience. He has been successfully implementing HR policies for multiple organizations. This also includes setting up organizational frameworks across various institutions.

He has hands on experience in structuring vendor management and streamlining the anatomy of purchase processes for industries and institutions of various kind. His expertise in formulating standard operating procedures for the entire hierarchy of an organization has made him a highly sought-after expert in such verticals. As an app developer and website designer by himself, his roles in refining and setting standards for multi-purpose industrial applications are noteworthy.

With two decades of administrative experience, his roles in Agam are multidisciplinary as a 5S Consultant, Financial Consultant, and administrative consultant for standardization of procedures and processes.

TOP CLIENTS

TESTIMONIALS

"...VijayBabu and his team's soft skill trainings have helped set the right mood for accepting changes and fostering a mindset of growth. It has been one year since we started our 5S journey and we are making slow but steady progress and I can say we are extremely happy with the transformation that has taken place in our factory..."

- Arjun, JMP, Cosmik Industries

"After the implementation of 5S methodology in our workplace, I am pleased to share that the overall productivity and efficiency has significantly improved.....Special mention to Vijay Babu & Yatheesh..I want to express my deep appreciation for the incredible 5S training team members. Their dedication and commitment to excellence are unmatched, and their knowledge and expertise in implementing the 5S methodology have been invaluable to our organization..."

- SakthiRekha, Director, RK Photocentre

TESTIMONIALS

"...It's been a wonderful experience for Umapathy Farms travelling along with Agam team for the last 3 years. Started training a small team of 20 members which has grown up to 80 members currently in a short span of time. 5S culture helped us a lot to build up effective systems in our organisation to reduce the wastage at all levels.....Above all I would say soft skill training is one of the best tools we have learnt from Vijay Babu sir which has made our team more stronger with good attitude and skill development..."

- RamPrasad, Director - Operations, Umapathy Farms

"...Agam have teamed up with us since March 2023 in the Cauvery Calling Project by providing a very comprehensive 5S training for more than 450 team members in our project....We are glad that the training methodologies are very professional, intuitive and organic which have kindled a positive & holistic development upon every team member. And it is very impressive to witness a better self discipline, heightened awareness level & improved lifestyle among individuals"

- Swami Srimukha, Operational Coordinator, Isha

OUR SERVICES

CULTIVATING THE CULTURE

Efficiency and visibility of any system improves drastically when the team accepts the system.

We don't stop just by sharing the knowledge. Any new idea that is shared with the team, be it soft skills or purely technical, will deliver its fullest benefit only when applied in daily life. We do travel closely with the team and make it a point to ensure the team is convincingly interested in their travel through new systems. Moreover, when the outcome and resulting benefits are enjoyed, the practices are sustained and thus evolves a new culture in the organization. More than implementing systems, Agam focuses on creating the culture.
